*Write a few lines about the usefulness of this plan for the Colombian English teachers*

Example: This lesson plan gives the students a chance to know about you, their new teacher, and it also gives you a valuable opportunity to assess your students' level. It can also be a useful and productive class if you ever find yourself substituting a class at short notice.

Author's remarks
This plan is aimed at helping Ss deal with one of the most important components of human development, which is the social-emotional competence. In a didactic way, it helps Ss know how to express their feelings, emotions or preferences in English in any real-life situational context. It also gives them a sense that English is not an isolated subject at school but through music and emojis, which are Realia (authentic material from the context). They will realize that they may find a real situation, out of the classroom, in which they can be able to interact with the language and understand the meaningful purpose this subject has for them. It is communication! That is why I consider this plan may be implemented throughout different school years. It is not narrowed down to a specific audience.

List a series of ideas of how this plan can be methodologically adapted so other teachers can implement it in their own educational context.

Implementation alternatives
<p>These are general tips for teachers to adapt any content. I would suggest to take into account.</p> <ul style="list-style-type: none"> <li>- Use music to set the lesson, it is a good tool to engage Ss.</li> <li>- Involve the four skills and the lexical competence in each class.</li> <li>- Look for strategies to favour the learning styles, use pictures, audios, movements so that all your students feel part of the activities.</li> <li>- Be enthusiastic in your activities, your Ss will react to that attitude.</li> </ul>

Write the key word for each category based on the content of this plan. For example:

Topic: environment Skill: reading Linguistic: should Vocabulary: animals, environment
