ORIENTACIONES PARA LOS PADRES DE FAMILIA

Estimados padres de familia y/o acudientes,

Continuamos nuestra labor, apreciamos su compromiso, excelente actitud y trabajo en equipo para el beneficio de nuestros jóvenes. El diseño de esta guía está basado en el libro *English please Fast track 9*, Unidad 1, módulo 4, lección 2 páginas 128,129,130,131. Para el desarrollo de la misma, su hijo(a) realizará las siguientes actividades en un tiempo estimado de 1 hora:

- **Sección 1 (vocabulario):** Ejercicio para familiarizarse con acciones que se realizan en casa y en las cuales se necesita el uso del agua.
- **Sección 2 (lectura):** Su hijo(a) realizará un proceso de comprensión de lectura de un texto en inglés sobre el no desperdicio del agua.
- **Sección 3 (gramática):** Su hijo(a) analizará los ejemplos que contienen las estructuras gramaticales y responderá unas preguntas sobre el uso, función y forma.
- **Sección 3 (escritura):** Su hijo(a) empleará el vocabulario y estructuras estudiadas en esta guía de aprendizaje y sus conocimientos previos, para diseñar un poster/afiche en inglés en el cual le de consejos a sus amigos y familiares sobre las cosas que debe hacer y las que no para ahorrar agua. El poster/afiche será diseñado y enviado al profesor(a) una vez se haya completado.
- **Sección 4 (autoevaluación):** El estudiante evaluará su aprendizaje a partir de las actividades que desarrolló.

Así, a través del desarrollo de estas actividades, su hijo(a) mejorará su manejo de vocabulario relacionado con el ahorro del agua y la estructura en inglés usada para dar consejos (Imperativos) y, además, logrará familiarizarse con la estructura de la sección de lectura del examen SABER 11, lo cual contribuirá a que se logre un mejor desempeño en el mismo.

Adicionalmente, su hijo(a) cuenta con ejemplos de las actividades, recursos adicionales y las respuestas correctas correspondientes a los ejercicios.

Esperamos que pueda apoyar a su hijo(a) supervisando el desarrollo de las actividades y formulando las preguntas que se encuentran al final de esta guía en la sección ORIENTACIONES FINALES PARA LOS PADRES DE FAMILIA a fin de confirmar los aprendizajes que su hijo (a) logró realizar.

Mil gracias por su apoyo!

Don't waste water!

There are 7 billion people on the planet and we need more water than before. 1.1 billion people don't have access to fresh water. Others only have access for part of the year. Pollution from factories and chemicals makes water dirty. Also, climate change means that there is less water now. It rains less, or rain falls at different times. The rain doesn't fill rivers and reservoirs.

If there is no clean water, people drink dirty water instead. This causes illnesses and a lot of people, especially children, die because of this.

What can we do?

If you live in a country with lots of fresh water, you are very lucky! But you can still help to save your country's water.

- Turn off the tap when you are brushing your teeth.
- Don't use fresh water to water your lawn.
- Don't have a bath. Have a shower instead.
- Eat less meat. The meat industry uses a lot of water.

Water is precious! Don't waste it.

Glossary

- waste* = desperdiciar
- pollution* = contaminación
- dirty* = sucio/a
